S I R:

In accordance with the provisions of 37 C.F.R. §1.56, Applicant requests that citation and examination of the references identified on the attached PTO-1449 form, copies of which are enclosed herewith accompanied by English-language Derwent abstract, where required, in accordance with 37 C.F.R. §1.98, be made during the course of examination of the above-mentioned application for United States Patent. Except as provided, the undersigned does not possess English translations of the non-English references.

The mailing date of this Information Disclosure Statement is within three months of the filing date of the CPA Request in the present application.

II. REMARKS

References AA, AB, AC, AL, AR, AS and AT are prior art in the general field of the present invention. Reference AL, which is in Japanese, discloses epitaxial growth forming monocrystal layer on semiconductor. Reference AT is in Japanese, and no English translation is presently available. However, if the Examiner desires such, Applicant will provide it upon request. Since references AA, AB, AC, AR, and AS are in English no further commentary concerning their teachings is necessary.

A copy of an English-language disclosure abstracts for reference AL from Derwent's WPI database is included.

The above references do not disclose or suggest a method for making thin film semiconductor, solar cell or light emitting diode as disclosed in the present invention.

In view of the foregoing, Applicant submits that all claims of the application are patentably distinguishable over the teachings of the above references, taken singly or in combination. Early consideration of the application is, therefore, requested.

Respectfully submitted,
